### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 3-11, as presently understood and given the broadest reasonable interpretations, are rejected under 35 U.S.C. 102(b) as being anticipated by Kaiser (2336402).

Regarding claim 11, the Kaiser reference discloses a shower arrangement (Fig. 1). The shower arrangement includes a shower room having at least one wall bordering a shower area and a supply of water (31,32,33) at the wall, a fitting housing (2) coupled to the supply of water in order to provide water to the shower, a first pipe leg (12) permanently affixed with respect to the wall and extending upwardly parallel to a plane of the wall, wherein the first pipe leg is coupled to the fitting housing so as to carry water from the fitting housing to the shower arrangement. A second pipe leg (13 or 14 or 15) is spaced from the first pipe leg and extending upwardly. A cross-member (18,19 or 18,20 or 18,21) connects top ends of the first and second pipe legs, wherein the first and second pipe legs with the cross-member forming an arced hollow section extending for a distance around the showering area, and wherein the cross-member couples to the fitting housing through the first pipe leg. At least one nozzle (at 25) is

coupled to the arced hollow section and directs water from the fitting housing into the showering area.

Regarding claim 3, as schematically shown in Figure 1, the cross-member is guided over the center of the showering area spaced from the wall of the room.

Regarding claim 4, the two legs (12 and 15) lie in the same plane (front view of Figure 1).

Regarding claim 5, the two legs (12 and 15) lie in parallel planes (top view of Figure 1).

Regarding claim 6, the entire arced hollow section lies in a plane (front view of Figure 1).

Regarding claim 7, the cross member bends out of the plane of at least one of the legs.

Regarding claims 8 and 9, as schematically shown in Figure 1, both legs are straight and are provided with nozzles (at 16)

Regarding claim 10, the arced hollow section provides a water line carrying water from the fitting housing to at least one nozzle (16) coupled to the second of the legs.

### ***Response to Amendment***

3. Applicant's amendment, filed on 10/11/06, to the pending claims is insufficient to distinguish the claimed invention from the cited prior art or overcome the rejections as discussed supra.

***Response to Arguments***

4. Applicant's arguments filed on 10/11/06 with respect to the pending claims have been fully considered. However, they are deemed not persuasive.

Applicant asserts that the Davies reference does not teach a shower room having at least a wall as claimed in the new claim 11. See remarks section. Nevertheless, such arguments have been considered but are moot in view of the new grounds of rejection as discussed supra.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khoa D. Huynh whose telephone number is (571) 272-4888. The examiner can normally be reached on M-F (7:00-3:30).
